

Guidelines for Referees and Reviewers for DDMC 2023

Deadlines

The inclusion of a paper, both oral and poster, in the final DDMC 2023 program will be dependent upon the submission of the draft and final manuscripts to DDMC by the official deadlines:

- abstract submission: May 31, 2022
- abstract acceptance notification: July 15, 2022
- revise before review: September 23, 2022
- paper submission: September 30, 2022
- paper acceptance notification: November 15, 2022
- final and approved paper for proceedings: January 7, 2023
- conference: March 15-16, 2023

Abstract / Paper Submission

For submitting an abstract and/or a conference paper we kindly ask you to use the corresponding templates. There you will find all formatting rules.

We highly recommend to benefit from the possibility of “revise before review”. Thus, the conference office will check your paper before uploading it in the system, e.g. in terms of formatting rules and will give you a feedback.

To ensure coherence in language and terminology, the following guidelines are mandatory:

- [ISO/ASTM 52900:2021](#)
Additive manufacturing – General principles – Fundamentals and vocabulary
- [VDI 3405:2014](#)
Additive manufacturing processes, rapid manufacturing - Basics, definitions, processes

Potential for External Publication

The Scientific Committee will decide about the shortlist of DDMC’s best papers. A certain number of extraordinary papers, having a very high scientific standard will be published in the PIAM journal (Progress in Additive Manufacturing).

Author Terms and Conditions

By submitting a paper to the DDMC program, authors confirm that:

To the best of their knowledge, they are not infringing any third party confidentiality agreements or other Intellectual Property Rights. They consent to the paper being reproduced by DDMC as part of the congress proceedings, except the best papers, which will be published in the PIAM Journal. The paper will be submitted by September 30, 2022 at the latest.

Further Information
