Fraunhofer Direct Digital Manufacturing Conference 2020

Instructions for Authors – Abstract Upload

DDMC 2020 employs a double blind review process for the abstract, meaning that neither the authors' nor the reviewers' identities are revealed.

The .dotx-template for your DDMC abstract can be found on our website at https://www.ddmc-fraunhofer.de/submission.

Prepare your abstract using this template and following the instructions given. Please make sure your contribution does not exceed the required length of 250 words**.**

For the double blind review process please prepare your abstract in a way that preserves anonymity of the authors (do not put your names under the title, avoid using phrases such as "our previous work" when referring to earlier publications by the authors, remove information that may identify the authors). Please make sure to provide the requested information concerning the methodology underlying your work and the results.

Step-by-step guide to uploading your abstract:

1. Enter your account in the DDMC 2020 online conference system: https://www.conftool.org/ddmc2020
2. Click on "Your Submissions" and on "DDMC 2020 Abstract".
3. Enter the author information and title of your contribution into the system.
4. Upload the anonymized pdf-file onto the website.
5. The abstract for review has to be uploaded onto the DDMC website by **July 5, 2019**, you may update the uploaded file at any time until then.

Once the review process is finished and authors have been informed about the acceptance of their abstracts we will ask you to upload the full paper by October 15, 2019.

In case of questions don't hesitate to contact our conference office at ddmc@mcc-events.de.
